

Time & Attendance Module

Accurately, Efficiently Track and Report Time

Employee clocking-in and clocking-out of various tasks becomes much easier and more accurate with ThinSoft's Time & Attendance module. One of the greatest areas of return on investment is in the ability to accurately report employee time, and our customers are reporting an average 5% reduction of labor costs. The Time & Attendance module integrates to ThinSoft's Payroll module, or can be used as a stand-alone application to populate your existing payroll system.

Time & Attendance module features include:

- Electronic time clock
- Ability to track multiple departments and pay rates per employee
- Supervisor date editing abilities
- Scheduling per department/duty/task
- Compare actual payroll expenditures to your budget in real time
- Supervisor sign-off procedures
- Can be used in conjunction with ThinSoft's Payroll module or as a stand-alone application
